USE OF TOBACCO ON SCHOOL PREMISES

BP - 1370

The school board recognizes that the use of tobacco presents a health hazard which can have serious consequences both for the user and the nonuser and is, therefore, of concern to the board.

For the purpose of this policy, "use of tobacco" shall mean all uses of tobacco, including a cigar, cigarette, pipe, snuff, or any other matter or substance that contains tobacco, as well as electronic, "vapor", or other substitute forms of cigarettes.

In order to protect students and staff who choose not to use tobacco from an environment noxious to them, the board prohibits the use of tobacco in school buildings, on school grounds, in school vehicles, or at any school-related event effective July 1, 2005.

Re: Reading Curriculum Recommendation

The following curriculum program recommendations are submitted for approval for the adoption period spanning July 1, 2019 through June 30, 2025:

Grades K-5: Wonders by McGraw-Hill

Grade 6: Into Literature by Houghton Mifflin Harcourt

The members of the Elementary Reading Adoption Committee set out in November to review current and new literacy curriculum for the upcoming adoption period of 2019-2025. All kindergarten through sixth grade teachers were asked to complete a survey to help the committee identify the top priorities for a core balanced literacy program. The survey results revealed three clear instructional priorities: a literacy program that balanced **rigorous reading instruction** with a **structured writing component** and a **strong phonics foundation** for primary grades with embedded **vocabulary and grammar** instruction at the intermediate grades.

The committee used an evaluation rubric to review programs from several publishers. At grades K-5, the committee found Wonders best met the instructional priorities with a balance of rigorous literacy instruction and structured writing instruction with a solid phonics foundation at the primary grades. Other strengths of the program that led the committee to recommend Wonders were support for differentiated instruction with leveled texts and plans for small group instruction, access to digital resources to provide additional practice and development of digital literacy through application, and integrated vocabulary, grammar, handwriting, and spelling components to teach related language arts skills in context rather than in isolation.

At sixth grade, the teachers weighed the balanced literacy priorities with the need for age-appropriate curriculum that was relevant and engaging to upper elementary students. While other programs provided rigorous content and solid writing instruction, what really set Into Literature apart from the other programs for sixth grade was the age-appropriate content that captured students' interest when the teachers tried out the instructional resources in their classrooms.

After considerable discussion and review, the committee recommends **Wonders** by McGraw Hill for grades kindergarten through five and **Into Literature** by Houghton Mifflin Harcourt for grade 6. Both programs offer blended print/digital format options for classroom implementation.

**A MESSAGE
FROM THE
WESTERN
BOONE BOYS
BASKETBALL
TEAM**

We want you to know that you are as much a part of our program as any coach, player or manager. We truly appreciate your support and want you to know that we will be working everyday to put a team on the floor that you can be proud of, not only as basketball players, but as members of the community.

We hope that at our basketball Camp, we will be able to help instill the values, skills and work ethic required to be great teammates, players and individuals. We will accomplish this by focusing the majority of our time on the fundamentals of the game, such as drills to help them with their dribbling, passing, shooting and defense. The rest of the time will be spent playing games and having contests to help encourage unselfishness, competitiveness and an overall team concept. All the while modeling appropriate behavior and sportsmanship.

**Desire, Dedication,
Discipline and Drill**

This camp has been designed for athletes of all ages: from Kindergarten to 8th grade. The drills and skills that they will learn will make them more fundamentally strong and therefore increase their chances of becoming a complete basketball player. During each session the campers will get a chance to work with the High School coaches and players. They will practice many of the drills and exercises that the JV and Varsity teams will perform on a daily basis.

The campers will not only receive instruction on a daily basis, but they will also be given a packet of drills that they will be able to practice at home, the park, or pretty much wherever a basketball can be dribbled.

On the last day of camp, we will spend a little less time on the fundamentals and spend more time on contests with prizes for the winners. Then, at the end, each camper will receive a T-shirt with our schedule printed on the back.

DESIRE, DEDICATION, DISCIPLINE AND DRILL

In our program we stress the 4 D's. You have to want to be great! You have to make it a priority! You have to try to do things the right way every time! And lastly you have to make it a habit! We recognize that to be great on the court we need to adhere to these principles, but also by adhering to these principles we will be better served in our everyday lives.

TEAM EGO

“The whole is greater than the sum of its parts”

There is pride in being a part of something bigger than yourself when you helped to make it that way. At Western Boone High School, we hope to instill this feeling to all who coach, play and show support for this program.
