Re: K-6 Math Curriculum Recommendation

Members of the Elementary Math Curriculum Adoption Committee would like to recommend the following Math program for the adoption period of July 1, 2022 through June 30, 2028.

**Grades K-6: McGraw-Hill Education – *Reveal Math***

Members of the Elementary Math Curriculum Adoption Committee met last fall to begin reviewing math curricula. Input from all classroom teachers was gathered through online surveys to determine priority qualities and features of a math program to meet the rigorous expectations of the Indiana Academic Standards. Committee members reviewed curricular samples from four programs published by three leading textbook companies. Virtual and in-person presentations from curriculum specialists from each publisher provided teachers with an overview of each program’s instructional design, features, and provided opportunity for teachers to ask questions specific to their grade level and the learning needs of their students.

After carefully reviewing and discussing strengths and weaknesses of each of the four program options, the committee narrowed the field to two final programs. Following the final meeting, an online ballot was sent via survey link to each committee member with 88% of the vote going to Reveal Math.

Reveal Math offers a traditional approach to mathematics instruction with a strong spiral review to maintain and build upon skills and new content throughout the year. In addition, each lesson offers teachers flexibility to choose between a guided instruction or hands-on exploration approach to new content and offers a wide variety of online and hands-on games to build fluency and conceptual understandings. Reveal Math is written specifically for Indiana to align with the Indiana Academic Standards, and unit assessments offer multiple question formats that represent the variety students will encounter on ILEARN statewide assessments. Nationally and at the state level, Reveal Math received high scores from EdReports and by the curriculum specialists from Central Indiana Education Service Center.

Re: 2022-2023 Elementary Fee Recommendations  
Date: May 9, 2022

The following elementary textbook fees are submitted for approval for the upcoming 2022-2023 school year. Textbook fees for the current school year are also provided for comparison.

The purchase of new math curriculum resulted in an increase of textbook rental costs at each grade. Nominal increases in the cost of paper and other consumable items also contributed to fee increases and are reflected in the totals below.

The Director of Curriculum requests permission to make adjustments to fees, if necessary.

<b>Grade</b>	<b>2021-2022</b>	<b>2022-2023</b>	<b>Difference</b>
