Logic Key, Inc.'s Harmony School Management Software provides parents with the capability to view portions of their child's academic record via the internet. Through the use of secure user names and passwords, you will have access to only your child's information. As with all passwords, it is important to not share your password with others.

The information you may view includes:

- **Attendance Report** – A summary of absences and tardies.
- **Discipline Report** – A summary of all discipline encounters.
- **Progress Report** - The student's current grades.
- **Homework Agenda** – A list of assignments.
- **Assignment Summaries** – By class, you may see all assignments, your child's score on each assignment, and his/her overall grade.
- **School Calendar** – Dates and times of school events

You will soon see an option to "Log in to Harmony" on the Western Boone Corporation web site, **www.WeBoSchools.org**. Once you click this, you will be prompted for your user name and password. You will have a separate user name for each or your children, however, the technology staff and Harmony are working on grouping multiple students to a single parental/guardian login.

Once you have entered Harmony, you will have the options of viewing your child's records by clicking on the appropriate links. You may print any of the reports by using your web browser's usual Print function.

With an account you will also receive **Progress Reports, Report Cards** and other records electronically in your e-mail.

If you would like to obtain a user name and password to gain access to your student's information please complete the bottom portion of this form and return it to your school's office or Guidance office. Once an account has been arranged, you will receive an email with your user name and password.

Parent/Guardian Names_____

Student Name_____

Grade_____

Email address_____
